

# WVBA ENGINEERS SEMINAR

JOIN US SATURDAY MAY 4TH FOR A **FREE SEMINAR**  
DESIGNED JUST FOR YOUR INTERESTS!  
CHARLESTON MARRIOTT - 2ND FL

**\*IF YOU WOULD LIKE TO STAY FOR THE BANQUET, TICKETS ARE \$80.\***

## **11:00 a.m. Antenna and RF System design for the FCC Repack**

This presentation will give insight into how antenna design influences radiation patterns, how the design and manufacturing of antennas and RF filters has evolved, and the software tools that can be used to select the optimum solutions for the TV broadcaster during the FCC repack and beyond. **Presented by Eddy Vanderkerken of RSF World**

## **12:15 p.m. Lunch - provided by RFS WORLD**

## **12:45 p.m. 5G What you want to know and what it really is...**

5G is the fifth generation of wireless technology, but users will know it as one of the fastest, most robust technologies the world has ever seen. Join us as we discuss what 5G will mean to radio and television in the future. **Presented by Chris Crump of Comrex**

## **2:00 p.m. CACI/FEMA/IPAWS/PEP Systems**

We are working with FEMA to attend and discuss these issues to bring you up to date. A more detailed summary will be provided soon.

**Scott Northcraft from Westwood One** will be displaying their Storq 2 delivery platform. He invite's any station looking for a new programming solution to stop by and see what Storq 2 can do for their station. Also on display will be Op-X One from Broadcast Software International (BSI). It's the powerful new upgrade to BSI's Simian automation software.

**Broadcast General Store will be represented by Mary Schnelle** with a display of their equipment offerings.

**Comrex and RFS World will have displays as well!**

**LUNCH PROVIDED FOR THE ENGINEER  
ATTENDEES BY EDDY VANDERKERKEN  
WITH RFS WORLD**
